

AGENDA

10:00 **INTRODUCTIONS**

10:05 **MEETING PURPOSE**

What a Review Committee does and how it fits in the DNREC Regulatory Development Process. What rule we are revising and why.

10:15 **EPA NSR REFORMS**

A review of the changes EPA made in the 12/31/02 action for NSR Reforms, the controversy around the reforms, legal actions and what Delaware must do to comply with the rule. How will we attack the problem of revising Reg. 25 in the Review Committee?

The basic reforms are (1) Baseline determination; (2) actual-to-projected-actual test; (3) PAL; (4) clean units; and (5) Pollution control projects.

A final reform concerns the Equipment replacement provision (ERP) which has been stayed.

Controversy surrounding the Reforms and the companion ERP. Legal actions. The importance of evaluating conflicting information presented by partisan supporters of a particular point of view.

The need to be familiar with some of the multitudinous documents pertaining to the reforms.

10:30 **EPA REFORMS BASELINE DETERMINATION FOR EMISSIONS INCREASE**

A review of the details of the EPA rule provisions for determining "baseline actual emissions", how it would apply in Delaware and what options Delaware has in structuring a different baseline determination.

11:00 **DISCUSSION OF DELAWARE OPTIONS**

11:50 **WRAP UP**

12:00 **Adjourn**
